ABOUT US

MiniArt Models was established in 2001 in Simferopol, Ukraine.

After two years of initial research and development, MiniArt Models released its first model kit in 2003 - 35002 SOVIET INFANTRY ON THE MARCH. In that year, we brought a total of fourteen new model kits to the market through their network of established distribution companies around the world. We also released our now famous vacuum - formed buildings in what would become a new series called -Buildings, Accessories and Dioramas.

In 2004, we launched another new series of models of famous warriors in (1/16 scale) HISTORICAL FIGURES SERIES together with the smaller (1/72 scale) HISTORICAL MINIATURES SERIES which features on historical buildings, castles and the soldiers who fought in historical battles.

In 2005, MiniArt Models had the pleasure of presenting our kits for the first time at the International Toy Fair at Nuremberg. We now attend several other Hobby Shows to engage with modellers in person all around the world.

In 2006 MiniArt Models released its first military vehicle kit in (1/35 scale). It was Soviet tank 35025 T-70M Early Production SOVIET LIGHT TANK w/CREW. Since then we have brought many different models of AFV/tanks, guns, vehicles & cars to the catalogue (as you can see here). Each of these new kits has been of an increased level of quality and continued improvement in fit, accuracy and enjoyment.

In 2012 our new slogan was created: "MiniArt Models. Innovation is everything" it is something we think reflects our brand as it moves forward and improves with each kit. Speaking of new kits, that year also saw an additional product line multi - colored kits of models of buildings in 1/72 scale, to aid especially train & railroad enthusiasts. This series of kits features plastic in six different colours that can be assembled unpainted, although you can choose to paint these kits to give a more realistic finish if you like.

That key word - "Innovation" continued in 2013 when we released a new series in 1/35 scale Miniatures Series - Civilian Subjects that show the regular people in wartime and peace time. The first item in this series was 38001 "European Tram". The very first model kit of a tram to be reproduced in plastic in 1:35 scale. We also released civilian figures to ride on the trams and even crews to collect the tickets!

In 2014 the company moved to Kiev, the capital city of Ukraine. There was a delay to accommodate this large move of all of our facilities, but this gave us time to focus on a whole new series of even higher - quality models with full interiors and detail that set a new benchmark for the hobby.

2016 saw all of our redoubled efforts come to fruition in yet another new series of models in 1/35 scale. The first model in a sequential run of the post - war soviet battle tanks was launched with the 37002 T-44M Soviet Medium Tank. This new family of soviet tanks continued through the T-54, 37003 T-54-I Soviet Medium Tank and continued through all of the variants of this famous tank in 2017. This series is continued with the T-55 family of tanks and its variants.

As you will see in this catalogue, the future releases in this series will add to MiniArt's range with more post - WWII and modern military vehicles with figures to match them.

As for the future? We continue in line with our motto of innovation in 2018, with two brand new lines to the MiniArt range. First, the "WHAT IF...? SERIES" in 1/35 scale that covers some designs that may well have come to fruition with exciting machines that we could only dream of in injection moulded plastic. And new super - detailed "AIRCRAFT MINIATURES SERIES" with the same high attention to detail as our finest vehicle kits in 1/35 scale. This new series features a launch our first kit of a Helicopter from the WWII Period, the "41001 FI 282 V - 6 Kolibri" in 1/35 scale in several variants.

1:72 HISTORICAL MINIATURES SERIES	page 72-75
1:35 WHAT IF...? SERIES	

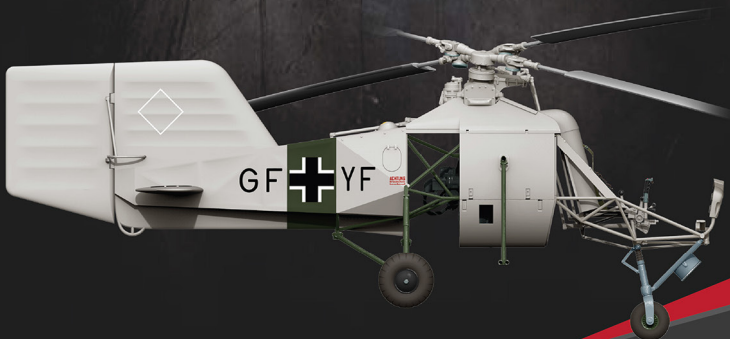

TWO **NEW** SERIES IN SCALE 1:35

WHAT IF ...? SERIES

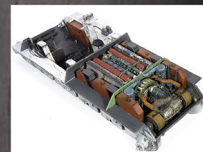

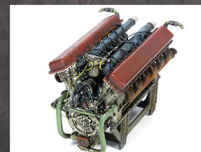

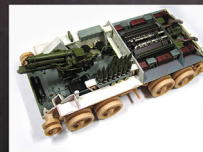

We are bringing imagination to injection moulding to some places it has never been seen before – One-offs, prototypes, projects and crazy schemes of engineers are the focus in this series.

AIRCRAFT MINIATURES SERIES

MiniArt's new Aircraft Miniature series is ready to take off – Vertically!

We have two types of models in our MINIATURE series - one with, and one without an interior.

The mark on our boxes "Interior Kit" denotes that extra step in **detail**. It ensures that the interior of the kit is represented in the highest possible detail. These kits need nothing else to be finished inside and out to a quality amongst the finest in the hobby. These kits suit the modellers with **time** on their side and an eye to internal detail inside and out.

The kits without interiors feature the **same high - quality detail** you expect from MiniArt's kits - but on the **outside** of the kit and at a **cheaper price**. The other bonus of these kits is a faster and more streamlined construction process that suits **those modellers who like a fast turnaround** on their workbench. The quality is still there - it is just on the outside!

WW II Military Miniatures Series

Only life's figures are more convincing and while selection is crucial to your enjoyment, quality is also an integral part of every MiniArt kit. We've raised the art of figure-making to a new level. We begin with sketches that craft a framework for poses and positions. Then, as part of the molding process, our figures are sculptured by an artisan adept at capturing each facial crease and nuanced detail. These figures are so real you can almost feel their emotion. Marching, resting, working and battle poses are natural and in synch with anatomical accuracy. Only reality's figures are more believable.

Quality beyond the ordinary in creating tanks, vehicles and artillery, we cut no corners. No facet is too small for special attention. Photoetched parts are used liberally to highlight details rarely exposed in other kits. Accessories like ammo boxes, artillery shells, oil drums, even small pails, are perfect.

Military Miniatures Series

From 1945 to the present day the world has changed and conflict has come and gone. This series of kits will include modern tanks, cars, trucks, AFV's and figures beautifully rendered and with scrupulous attention to detail. The aim here is to provide accurate, well engineered and excellently presented kits that will fascinate, excite and engage so as to immerse the modeller into the subject.

Our "POST WAR" and „MODERN“ periods series of kits are designed to bring you all of most exciting innovations and technological advances since WWII.

Miniatures Series

New ways. Miniatures series presents civilian subjects. Complete package everything you need for an accurate model in one box the series is filled up with models from different years and contains various sets of trucks, cars, trams, figures etc. Without any doubts we are keeping high level of our models using up-to-date moulding technology. Unique nonmilitary subjects of the Miniatures series give new ways for modelers to enrich their imagination.

Buildings and Accessories Series

Advanced techniques deliver detail and convenience. In this original series, the art of injection molding and the latest vacuum forming techniques merge to add a new dimension to your hobby. Vacuum formed roofs and walls, mesh with highly detailed injection molded windows, doors, stairs, gates and other architectural components to create exacting replicas. In contrast to ceramic and resin, plastic is more affordable, lightweight, and stronger.

ACCESSORIES FOR BUILDINGS

Dioramas Series

A new dimension in military modeling... Diorama kits. Never before available in plastic, our Diorama Series breaks new ground in modeling innovation. Each kit contains buildings, accessories and matching, textured bases to form a complete diorama. The creative flourishes are everywhere, like advertising on a street kiosk, period lamp posts, directing signs and more. The realism is exceptional. To complete the dioramas, some kits contain military figures in varied poses, including marching, resting and fighting. Their weapons, armored vehicles and accessories are included.

Aircraft Miniatures Series

NEW
SERIES

MiniArt's new Aircraft Miniature series is ready to take off – Vertically! With the launch of our new series of 35th scale Helicopters from the WWII Period, the “#41001 FI 282 V-6 Kolibri” we are stating our intent – to create aircraft in scale in the highest possible quality both inside and out. That same detail that we have brought to our tanks and vehicles can be expected in our innovation of new models in injection moulded plastic. Every good aircraft diorama needs people to populate it, and we will provide not only the aircraft, but the crews to fly them, man the guns and aim the bombs, the mechanics, ground crew, accessories and even ground service vehicles to service them. This combination of aircraft and aviators, planes and people, will be one of most exciting series yet...

Historical Miniatures Series

New choices the variety of ideas. Modelers, gamers and hobbyists have never had the opportunity to work with these choices of subject matter in these chosen timeframes. MiniArt has created, in plastic, a series of historically accurate stone fortress, castle, soldiers, weapons and accessories from the 4th through the 15th century and beyond. The range of multicolored kits creates an opportunity to build up them in both ways: painted and unpainted.
